RECOMMENDED USES

- Pet
- Play
- Landscape
- Over Decking

Lifestyle RUFF 35mm is a high-quality synthetic grass lawn system developed with your pet's daily duties in mind. Whether you are a dog owner frustrated with muddy paws and brown spots on your lawn or a doggy day care, boarding kennel, or vet clinic, we've got the solution for you!

RUFF is designed for dogs in mind, it is fully recyclable, the pile height, density, yarn count to the fully permeable drainage system. It has been engineered to allow urine to freely flow through the backing. Our yarn has antibacterial properties which further mitigate odours, add Envirofill a non-toxic, antimicrobial infill which allows urine to drain right through. These two products make it ideal for dogs.

Soft on paws and gentle on fur, pets love playing, running, rolling around, and relaxing on RUFF as much as real grass, so there's no compromise between a stunning garden and a happy pet.
