**Lifestyle RESORT 25mm** contains a dynamic mix of emerald and olive thin fibers. RESORT and VILLA are the deepest colour of green that we offer, mixed in with the brown and green thatch, these two types stand out as one of the most realistic artificial turf products on the market. Our thin fibers have the newest technology to help prevent flattening, making them a great choice.

Our turf features innovative new technology that ensures full permeability, allowing water to drain efficiently through the surface, eliminating pooling and keeping the area dry and usable in all weather conditions.

CoolTouch™ equipped means the LEISURE Series™ is consistently cooler to touch, making it exceptional for those hot Kiwi Summer's. The LEISURE Series has a high stitch rate making it a lush, soft and comfortable surface.
